Election/Restrictions

Claim 19 is allowable. The restriction requirement among the species, as set forth in the Office action mailed on 12/12/2005, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 21,24-26,29-31,33 and 35, directed to non-elected species no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Claims 19-43 have been allowed because the prior art of record when considered as a whole, alone or in combination, neither anticipates nor renders obvious a vapor compression and energy recovery unit comprising a first bypass circuit which connects a refrigerant discharge side of the radiator to the side of the high pressure port of the compression/expansion device while bypassing the refrigerant shutting unit and a second bypass circuit which connects the low pressure port of the compression/expansion device to the refrigerant suction side of the radiator in the refrigerant circuit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
